

THINK KENTUCKY

Cabinet for Economic Development

MOTOR VEHICLE- RELATED FACILITIES

REPORT DATE: April 16, 2018

NUMBER OF FACILITIES: 522

TOTAL FULL-TIME EMPLOYMENT: 100,668

Motor Vehicle-Related Facilities Report

Introduction and Methodology

The Kentucky industry reports provide a list of facilities (with 10 or more employees) normally associated with Cabinet programs. Most information is taken directly from surveys completed by each facility or from phone or personal contact with the facility. Survey information is collected on an annual basis. Facility name, address, location, product or service, employment and other information may change and often does change between annual surveys. While all attempts are made to capture ongoing changes from data provided by facilities, local economic development contacts, media announcements, and Cabinet programs, no guarantee can be made that changes will be discovered. Also included on these reports, but not counted in the total number of facilities or full-time employment, are new location projects recently announced in Kentucky. The projects are identified by (announced) next to their projected full-time employment.

To be included on the Motor Vehicle-Related Facilities Report, a facility must produce components, or provide parts/services to a facility that produces components, for a motorized vehicle that is driven on a highway. Such vehicles are cars, trucks, motorcycles, busses, RVs, commercial freight trucks, etc.; but are not rail cars, campers, forklifts, all-terrain vehicles (ATVs), lawn mowers, trailers, etc.

Where information is available, the report provides each facility's name, address, telephone number, product/service, employment figure, and year of establishment.

The report shows total employment for each facility. Actual employment related to production of motor vehicle components, parts, or services may be less since some employees may be involved in production of products or services unrelated to motor vehicles.

Each facility's employment figure is followed by the year for which it was last reported. Information about these facilities was last verified by KCED in this same year.

Where applicable, data has been included to indicate that a facility has made a location announcement. Operations data for those facilities has not been verified by KCED and their projected employment are NOT included in the total employment figure shown.

Disclaimer

The information provided herein by the Kentucky Cabinet for Economic Development is believed to be accurate but is not warranted and is for informational purposes only. While all attempts are made to insure the correctness and accuracy of information in this report and to make corrections and change errors brought to our attention, no representation or guarantee, express or implied, is made as to the accuracy of the information presented. Any information provided in this report is provided without assurances or warranties and should not be relied upon as fact. The Kentucky Cabinet for Economic Development assumes no liability for the accuracy of the information contained in this report.
